Creating and maintaining the school as a place of safety in a supportive, nurturing community is an essential part of EREA's ethos and forms the basis of our commitment to the protection of students and children. EREA strives to ensure a culture within its schools and entities where all who have the responsibility and care of students and children understand that student and child protection is every person's responsibility. Important to developing this culture is ensuring the implementation of strategies enacted to minimise the risk of harm to students and children. That is, the education of staff and students about personal safety strategies and an acknowledgment by EREA schools and entities that the safety and wellbeing of students and children must be at the centre of every preventative and protective action they take.
